

ALFABETIC LIST
OF
SIMPLIFICATIONS IN SPELLING

RECOMMENDED BY THE SIMPLIFIED SPELLING BOARD

UP TO JANUARY 25, 1909

The star attacht to a word in the following list signifies that the word, tho simplified in part, by rules thus far adopted by the Board, is obviously open to improvement in an other part, by rules which remain to be considerd. This is a necessary condition of the policy of gradual simplification by general agreement. It is to be understood that all remaining irregularities await consideration. Only the most conspicuous cases are here markt.

The simplified spellings thus far recommended by the Simplified Spelling Board have been publisht in three circulars devoted to such recommendations, namely:

(A) Circular No. 2, publisht March 21, 1906, entitled "List of Common Words speld in Two or more Ways," otherwise known as the Three Hundred Words; republisht in Circular No. 15, November 28, 1907, entitled "Three Hundred Words speld in Two or more Ways";

(B) Circular No. 18, publisht January 30, 1908, entitled "Simplified Spellings: a Second List," containing (I) a miscellaneous list of seventy-five words presenting various anomalies, classified in twenty-five paragraphs (pp. 4-10), and (II, III) six classified lists coming under two general rules, covering (II) the words in (1) *-ile* simplified to *-il*, (2) *-ine* simplified to *-in*, (3) *-ise* simplified to *-is*, (4) *-ite* simplified to *-it*, (5) *-ive* simplified to *-iv*, and (III) (6) *-ed* pronounced *-t*, simplified to *-t*;

(C) Circular No. 22, publisht January 25, 1909, entitled "Simplified Spellings: a Third List," containing four additional classes, namely, (I) words having *-ea-* pronounced *-e-*, and so simplified, as in *hed*, *helth*, *spred*, etc.; (II) preterits and participles ending in *-ed* pronounced *-d*, and so simplified, as in *armd*, *burnd*, *fild*, *livd*, etc.; (III) words ending in unstrest *-ice* pronounced

-is, and so simplified, as in *coppis*, *cornis*, *crevis*, *justis*, etc.; (IV) words ending in *-ve* pronounced -v, and so simplified, preceded by *l* or *r*, as in *delv*, *solv*, *carv*, *serv*, etc.

For a detailed explanation of the rules and classes and miscellaneous lists, and for historic and literary authority, consult the circulars mentioned, namely Nos. 15, 18, and 22 (free on request). The rules are here restated in brief form (see pp. 3-4).

This Alfabetic List includes all the words expressly entered in the circulars named and the greater part of the words covered by general rules; but many infrequent or difficult words are omitted. The words omitted are chiefly chemical and mineralogical names in *-ine* simplified to *-in*; infrequent polysyllables in *-ive* simplified to *-iv*; and many inflected forms in *-ed* simplified to *-d* or *-t*. Of course the list does not contain any simplifications not yet officially adopted. In due time an ampler list, with additional simplifications, may be expected.

This list contains, in round numbers, 1100 separate words, simplified in the root, and 2200 *inflected forms* (preterits, participles and participial adjectives ending in *-ed*, or, as simplified, in *-d* and *-t*), in which the change appears only in the inflection. The inflected forms are indicated by a dash preceding.

This list is intended as a present guide for teachers and pupils, and for persons who adopt the simpler spellings in their personal, official, or business correspondence. Persons who have a large correspondence have only to direct their typewriters to use the simpler spellings in this list. The typewriter will remember that a good many words are now simplified, will look, on occasion, at the printed list, and will thus in a week or two know all the simplified words that recur in the office correspondence. It matters not if the old forms sometimes reappear.

To compositors the simplified forms present no difficulty. To adjust varieties of words, spellings, types, faces, sizes, is their daily play. It is as easy to set up one form as an other.

RULES FOR SIMPLIFICATION

The following are the rules under which the simplifications contained in the list are grouped. They are condensed from the circulars mentioned, and are arranged in the alphabetical order of the letter or letters, or the suffix, affected.

'Rule' here means simply a recommendation that applies to a number of words having the same irregularity of spelling.

To facilitate acceptance it was deemed expedient in some cases to restrict the rule to a limited number of the words in the class. Any one who chooses to extend the rule at once to all the words of a given class is of course free to do so.

After each rule is given a list, either of all the words affected (if they are not many), or of all the words mentioned in the original rule, or of a few examples of the large number covered by the rule. In the latter case "Ex." ('Examples') is prefixed, and "etc." is added. If the official recommendation applies to all words containing the letter, sequence of letters, or suffix, affected, in the pronunciation indicated, the word RULE is printed in capitals. For some small classes and for isolated amendments no rule is here given.

1. *ae*, *æ* or *e*, not final. RULE: Choose *e*. Ex.: *Anesthetic*, *chimera*, *era*, *esthetic*, *ether*, *medieval*, *paleontology*, etc.

2. *-bt*, with *b* silent. RULE: Omit *b*. Ex.: *Det*, *dettor*, *dout*, *indetted*, *redout*, *redouted*, *redoutable*.

3. *ea* pronounced as short *e*. RULE: Drop *a*. Ex.: *Hed*, *spred*, *sted*, *tred*, *thret*, *helth*, *welth*, *dremt*, *ment*, *plesant*, etc.
